Tenure of the Scheme	<p>51 months from the date of allotment of the Scheme (including the date of allotment). If the maturity date falls on a non business day, the maturity date shall be the next business day.</p> <p>The Scheme will be fully wound up at the end of the tenure of the Scheme.</p> <p>Units of the Scheme will be redeemed only on the Maturity Date(or immediately succeeding Business Day if that day is not a Business Day.)</p>
Liquidity	<p>No redemption/ repurchase of units shall be allowed prior to the maturity of the Scheme. However, Unit holders who wish to exit from the Scheme before maturity may do so through the Stock Exchange route, since the Scheme will be listed on a Stock Exchange. The Scheme shall be listed on the National Stock Exchange of India Limited (NSE). Unit holders, who wish to trade in Units of the Scheme before maturity, may do so through the stock exchange route at the listed price, which will be available on the NSE. Only the Units held in dematerialized form can be traded on the NSE.</p>
Listing	<p>The AMC/Mutual Fund will list the Units of the Scheme on National Stock Exchange of India Limited (NSE) within 5 Business Days from the date of allotment. Investors holding the units by way of an account statement (physical form) will not be able to trade their units till they are dematerialized. The Units of the Scheme are available for trading and transfer only in demat mode via the stock exchanges. An investor can buy/sell Units on the exchange during the trading hours like any other publicly traded stock.</p> <p>The trading facility on the NSE would be available from the date of listing till the date of issue of notice by the AMC for fixing the record date for determining the eligibility of Unitholders (being the list of Beneficial owners as per the Depositories Records (NSDL/CDSL)) for the purpose of maturity pay out.</p> <p>The trading of Units on the NSE will automatically get suspended from the date of issue of the above notice and also no off-market trades shall be permitted by the Depositories. The AMC may at its sole discretion list the Units on any other recognized exchange(s) at a later date during the tenure of the Scheme. The AMC may also decide to delist the Units from a particular exchange, provided that the Units are listed on at least one exchange.</p> <p>The price of the Units in the market on Exchange will depend on demand and supply and market factors and forces. There is no minimum investment amount for investment through Exchange, although Units dealt in minimum in lots of 1.</p>
Investment Strategy	<p>The Scheme endeavors to preserve capital by investing in fixed income securities; and generate capital appreciation by investing in equity and equity related instruments. 5% to 25% of net assets would be invested in equity and equity linked instruments and the balance net assets would be invested into debt securities and money market instruments.</p> <p>EQUITY STRATEGY:</p> <p>A top down and bottom up approach will be used to invest in equity and equity related instruments. Investments will be pursued in selected sectors based on the Investment team's analysis of business cycles, regulatory reforms, competitive advantage etc. Selective stock picking will be done from these sectors. The fund manager in selecting scrips will focus on the fundamentals of the business, the industry structure, the quality of management, sensitivity to economic factors, the</p>

financial strength of the company and the key earnings drivers. The Scheme may invest in unlisted and / or privately placed securities subject to the regulatory limits.

EQUITY DERIVATIVE STRATEGY:

The Scheme may invest in various derivative instruments which are permissible under the applicable regulations. Such investments shall be subject to the investment objective and strategy of the Scheme and the internal limits if any, as laid down from time to time. These include but are not limited to futures (both stock and index) and options (stock and index). Derivatives are financial contracts of pre-determined fixed duration, whose values are derived from the value of an underlying primary financial instrument such as interest rates, exchange rates, commodities and equities. There are several advantages in using derivatives in the portfolio. The use of derivatives provides flexibility to the Scheme to hedge whole or part of the portfolio.

The equity derivatives strategy would endeavor to provide exposure to equities through mainly derivatives, i.e exchange traded options and futures. The equity derivatives strategy shall endeavor to provide the portfolio with participation in the underlying equity index. The participation rate would depend on the prevailing prices of the options. The total exposure related to option premium paid will not exceed 20% of the net assets of the Scheme at the time of investment. If due to market movements, the value of options appreciates/ depreciates resulting in breach of the limit of 20%, the fund manager may or may not rebalance the portfolio. However, if the fund manager sells the option before expiry of the contract, the reinvestment, if any, would be subject to the maximum 20% limit on options premium.

FIXED INCOME STRATEGY:

The fixed income portfolio will consist of

- A pool of investment grade rated fixed income securities maturing in line with the tenure of the fund
- This portfolio would comprise mostly Hold to Maturity (HTM) securities.

The fund management team endeavors to meet the investment objective whilst maintaining a balance between safety and return on investments. The Scheme shall be actively managed and the fund management team may endeavor to generate returns whilst moderating credit and interest rate risk. The fund manager shall formulate a view of the interest rate movement based on various parameters of the Indian economy, as well as developments in global markets. The Investment Manager may try to leverage its international resource base to understand the global economic and interest rate environment.

Investment views/decisions inter alia may be taken on the basis of the following parameters:

- Returns offered relative to alternative investment opportunities.
- Prevailing interest rate scenario
- Quality of the security/instrument (including the financial health of the issuer)
- Maturity profile of the instrument
- Any other factors considered relevant in the opinion of the fund management team.

The Scheme may also use derivatives to reduce the volatility of the portfolio and/or to enhance the portfolio returns. The Scheme may try to identify securities that yield relative value over others for similar risk and liquidity level. Various analytical tools like yield curve analysis, spreads between asset classes, horizon returns, forward implied interest rates, may be deployed to evaluate various investment options.

Credit Evaluation Policy:-

The AMC has structured an internal credit risk management process. The process comprise of detailed analysis of both quantitative and qualitative factors, including financial statement analysis, business outlook, future expansion/ capex plans, capital market data, management reputation, corporate governance, capital raising pattern, equity market inputs, etc and other relevant factors as deemed appropriate. Ratings assigned by the recognised external rating agencies are also taken into account. Based on the analysis an internal grade is assigned to each issuer. Taking the internal grading of the issuers into account, the credit portfolio is constructed judiciously to attain scheme objectives while balancing the credit risk profile of the Scheme.

List of Sectors the Scheme would not be investing:-

The Scheme do not intend to invest in Companies falling within Airlines, Gems & Jewellery Sector.

Floors and ceilings within a range of 5% of the intended allocation (in %) against each sub asset class/rating:-

The Scheme will invest in various instruments as mentioned in the matrix below with the ratings mentioned against the type of instrument. As per SEBI circular no Cir/IMD/DF/12/2011 dated August 1, 2011 the Scheme is allowed to invest within a range of 5% of the intended debt allocation (floor and cap) against each sub asset class/credit rating.

The Scheme will invest in various instruments as mentioned in the matrix below with the ratings mentioned against the type of instrument. As per SEBI circular no Cir/IMD/DF/12/2011 dated August 1, 2011 the Scheme is allowed to invest within a range of 5% of the intended debt allocation (floor and cap) against each sub asset class/credit rating.

1. Floor and Cap (within a range of 5%) of the intended debt allocation against each sub asset class/credit rating will be as follows:

Similarly, securities with A1 rating shall include A1+. 3. In case of non availability of and taking into account the risk reward analysis of CP, NCD and Securitised Debt, the scheme may invest in CD having the highest credit ratings (i.e. A1+)/ TBills/ CBLO. Such deviation may exist till such suitable NCD/ Securitised Debt /CP of desired quality are not available in the market. 4. Positive variation in investments towards higher credit rating in same instruments shall be allowed; 5. All investments shall be made based on the rating prevalent at the time of investment. If more than one rating is prevailing for any particular instrument in which investment is being made, the Scheme would consider the most conservative publically available rating for the said instrument, for the purpose of intended allocation range. 6. The Scheme may have higher allocation towards cash or cash equivalents immediately post NFO closure or towards the maturity of the Scheme. 7. Further, the above allocation may vary during the duration of the Scheme. Some of these instances are: (i) coupon inflow; (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event etc. In case of such deviations, the Scheme may invest in Bank CDs having highest ratings (i.e. A1+ or equivalent) / CBLOs / T-Bills. Deviation, if any, due to such instances, may continue till maturity, if suitable NCDs / CPs of desired credit quality are not available. 8. In the event of any deviation from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of the said deviation. In case the same is not aligned to the above asset allocation pattern within 30 days, justification shall be provided to the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action. 9. There shall be no deviation between the intended allocation and actual allocation post the New Fund Offer period, except for the situation stated in (3), (4), (6) and (7) above.
<p>Risk Profile of the Scheme</p>	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Investment in DHFL Pramerica Dual Advantage Fund - Series 1 will involve certain Scheme specific Risk Factors which are summarized below:</p> <p>The Scheme carries risk associated with investing in debt, money market instruments and securitized debt instruments. Investment in debt and money market instruments are subject to Interest Rate Risk, Credit Risk, Spread Risk, Liquidity Risk, Counterparty, Risk, Re-investment Risk, Risk associated with listing. As the price / value / interest rates of the securities in which the Scheme invests fluctuate, the value of your investment in the Scheme may go up or down.</p>

	Please refer to Scheme Information Document (SID) of the Scheme for detailed risk factors.
